INVITATION

Due Data *12th June 2012*

BT Cerner CSC The Royal College of Midwives ehi CCIO LEADERS NETWORK

This June meeting forms part of the CCIO Leaders Network events programme and is being run in association with the Royal College of Midwives.

The focus will be on the use of technology and the resulting data in midwifery. As well as hearing a national perspective on the use of data and how it can be improved in maternity services, there will be talks from the EHI Awards mobile technology winners who successfully implemented an electronic note-taking system using digital pens and BlackBerry smartphones. This panel discussion will enable midwives to engage with midwifery informaticians in order to see how successful informatics use can improve patient safety and care.

Who should attend?

All midwives who are interested in the use of informatics and how to improve and integrate better the data that it produces. Lead Midwife Educators who are keen to learn of the skill sets required to facilitate this improvement and Heads of Midwifery who would like to identify upcoming informatics enthusiasts in the midwifery world.

The Benefits of Attending

Midwives carry out a vast amount of data collection in the course of their work but seldom reap the benefits that can flow from good management and use of that data. This event is designed to help senior midwives consider how this situation can be reversed and understand more clearly how innovative technologies can make data gathering and information analysis easier.

Speakers

Claire Brookes - Service Delivery Manager, Portsmouth Hospitals NHS Trust

Kenda Crozier - Senior lecturer in Midwifery at School of Nursing Sciences, University of East Anglia

Patricia Reilly - registered midwife and IM&T Clinical Systems Manager, Countess of Chester Hospital NHS Foundation Trust

Julie Tindale - National Clinical Lead Midwifery & Nursing

Programme details - 12th June 2012

12.00pm	Lunch
1.00pm	The benefits of using digipens and BlackBerry smart phones in community midwifery *Claire Brookes, Service Delivery Manager, Portsmouth Hospitals NHS Trust*
1.20pm	A study looking at how students used technology whilst studying but not in practice *Kenda Crozier, Senior lecturer in Midwifery at School of Nursing Sciences, University of East Anglia*
1.40pm	A dual view from midwifery practice and the IT department *Patricia Reilly, registered midwife and IM&T Clinical Systems Manager, Countess of Chester Hospital NHS Foundation Trust*
2.00pm	Q&As *Panel discussion with speakers*
2.20pm	Refreshments
2.50pm	National Perspective *Julie Tindale, National Clinical Lead Midwifery & Nursing*
3.20pm	Discussion / Panel Q&A *Chaired by Linda*
4.00pm	Closing Remarks / Summary
4.10pm	Depart

Leeds City Centre

12.00 - 16.00
