# Invitation to take part in research

---

## **STRATEGIES TO IMPROVE IODINE STATUS IN EARLY PREGNANCY**

*A qualitative study looking at the views and knowledge of midwives in relation to iodine and nutrition in pregnancy.*

We are recruiting midwives currently practicing within the UK and those involved in midwifery academics to take part in a virtual one-to-one interview regarding their views on iodine and nutrition during pregnancy.

This research is being undertaken with Queen's University Belfast.

**If you would like more information or would be willing to participate please contact:**
